By: Ronnie Boy Kids

Lyrics

Ronnie Boy Land (Theme)

Hey, guys
It's me, Ronnie Boy

Hey you
How do you do
Are you ready to follow me
We can go fly a kite
Maybe climb a tree
We can swing to wherever we want
Pit stop in harmony
So come along
And join the fun
Guest list
You the VIP

Together we'll explore
Learn and grow
In Ronnie Boy Land
There's no limit to the show

In Ronnie Boy Land
In Ronnie Boy Land
Adventures for days
We do it our way
In Ronnie Boy Land
In Ronnie Boy Land
We can make our dreams come true
Just me, myself, and I
And you

Fly

You know, I've never liked when people told me I shouldn't jump so high
Or I should be careful not to leap so far
I've always just trusted my own journey
and where I'm gonna go
You should do it too
It feels great up here

Down on the ground, so plain
Join me where it's not the same
World below, small and round

Tired of being earthbound
Gravity is not my friend
Walk, jump, or sprint, depends
I prefer to fly
Wish you could see what I see, no lie

Give me space
(Give me space)
No time to waste
(No time to waste)
Blast outta here so quick
No losing when I'm winning my own race
Give me space
(Give me space)
No time to waste
(No time to waste)
If you close your eyes
You'll miss out on the beauty of this place

Alright I'mma need everyone
to put your wings in the air
And get ready to fly with me
You ready
1 2 3 wooo

I wanna fly, fly, fly, fly up in the sky
No one bring me down
No matter how hard they try
I wanna fly, fly, fly, fly up in the sky
I'm gonna spread my wings
And fly so high
Don't wanna feel like a train
I wanna feel like a plane
Thru the sky
Above the clouds and the rain
I wanna fly so high like every day
Soaring with the birds
So get out of my way

Every cloud I pass
A new world to see
So many adventures
Waiting just for me
From mountains to valleys
And oceans so wide
Time of my life
On this magical ride

Give me space
(Give me space)
No time to waste
(No time to waste)
Blast outta here so quick
No losing when I'm winning my own race

Give me space
(Give me space)
No time to waste
(No time to waste)
If you close your eyes
You'll miss out on the beauty of this place

I told you it feels good to fly, doesn't it
Why stop now
Let's do it again

I wanna fly, fly, fly, fly up in the sky
No one bring me down
No matter how hard they try
I wanna fly, fly, fly, fly up in the sky
I'm gonna spread my wings
And fly so high
Don't wanna feel like a train
I wanna feel like a plane
Thru the sky
Above the clouds and the rain
I wanna fly so high like every day
Soaring with the birds
So get out of my way

I'm so proud of you
This is for anyone who's ever dared to dream big
Be unapologetic about it
It's your path, your journey
Just make sure to have fun while you soar
Let's fly

I wanna fly, fly, fly, fly up in the sky
No one bring me down
No matter how hard they try
I wanna fly, fly, fly, fly up in the sky
I'm gonna spread my wings
And fly so high
Don't wanna feel like a train
I wanna feel like a plane
Thru the sky
Above the clouds and the rain
I wanna fly so high like every day
Soaring with the birds
So get out of my way

Best Friend(s)

I wanna talk about my best friend
Do you have a best friend
I have a lot
And I love 'em all

Who's your best friend
Who's your best friend
Who's your best friend
I got best friends
Who's your best friend
Who's your best friend
Who's your best friend
Got a lot of best friends

My best friend's my dog named Billy
He plays with me knows how to be silly
My best friend's my dad
'Cause he never ever makes me sad
My best friend's my friend named Joey
We play at school when hot or snowy
My best friend's my bird named Larry

He's always there when times are scary

Who's your best friend
Who's your best friend
Who's your best friend
I got best friends
Who's your best friend
Who's your best friend
Who's your best friend
Got a lot of best friends

My best friend's a girl named Jilly
She likes to dance and prance for really
My best friend's my mom
She holds my heart very dear in her palm
My best friend's my teacher, Ms. White
She shows me what is wrong and right
My best friend's my ferret named Carrot
She bites a lot
Watch out when near it

Who's your best friend
Who's your best friend
Who's your best friend
I got best friends
Who's your best friend
Who's your best friend
Who's your best friend
Got a lot of best friends

My best friend's a friend you can't see
We love to go play hide and seek
My best friends are there for me
No matter what this life may bring
My best friends are friends forever
Thru thick and thin and stormy weather
My best friends are family
I count on them, they count on me

Who's your best friend
Who's your best friend
Who's your best friend
I got best friends
Who's your best friend
Who's your best friend
Who's your best friend
Got a lot of best friends

Wow
I have a lot of best friends
Sometimes you might have one
And sometimes you might have many
They can be friends, family, classmates, pets
Or anyone really

They're the most important people in your life
So hold onto them
Even if you fight sometimes
So tell me
Who's your best friend

Family (feat. Jeremy Passion)

In this life they say
These one's should always come first
(Who you talkin' about)
(Ooo Ronnie Boy who you talkin' about)
Oh I never really got it before
But actions speak louder than words
(No question)
(It's the most valuable lesson)

Who's gonna be right there
When you feel down
When you need help
Who will be around

I'm talkin' 'bout

F-A-M-I-L-Y
That's my family
My brother, my sister, my mom, my dad
My granny and grandpa, aye
Home ain't a place
It's the people who love me
That's where I wanna be
I'm talkin' 'bout
F-A-M-I-L-Y
That's my family

There might be some times
Your fam gets on your last nerve
(Time for bed, wash the dishes)
(After you play, you gotta put your toys away)
(Okay)
It's not always easy
But one thing's for sure, you'll learn
(No one is perfect)
(But it's so worth it because)

Family will be right there
When you feel down
Oh when you need help
Tell me who will be around

I'm talkin' 'bout

F-A-M-I-L-Y

That's my family

My brother, my sister, my mom, my dad

My granny and grandpa, aye

Home ain't a place

It's the people who love me

That's where I wanna be

I'm talkin' 'bout

F-A-M-I-L-Y

That's my family

When you're pushed to the limit

Just know that your family's always there

They're a shoulder to cry on

People you can always rely on

Family is not an important thing

It's everything

F-A-M-I-L-Y

That's my family

My brother, my sister, my mom, my dad

My granny and grandpa, aye

Home ain't a place

It's the people who love me

That's where I wanna be

I'm talkin' 'bout

F-A-M-I-L-Y

That's my family

That's my family

That's my family

That's my family

Time Out (feat. Uncle Jumbo)

Now I'm in time out

Time out

Time out

Now I'm in time out

Time out

Time out

Thought I was funny

Cutting the corners and running

But I was breaking all the rules

Fighting at school

Tryna be cool

I wasn't caring
I talked back
I wasn't sharing
And now I realize I'm wrong so wrong

Shoulda listened to my mama
(But I didn't though)
My daddy
(My bad)
Now I'm in stuck in the corner
Watching the clock
Can't do nothing
Internet's blocked
Why oh why didn't I listen

Now I'm in time out
Time out
Time out
Now I'm in time out
Time out
Time out

Timeout timeout
Here I sit
Thinking on the things I shouldn't a did
Every little step
It felt so good
Bad choices
My prerogative
But it was poison
I'm not rejoicing
If it wasn't love
Why'd I act that way
Own up to my faults
Don't walk away

Shoulda listened to my mama
(Sorry, Mama)
My daddy
(Won't do it again)
Now I'm in stuck in the corner
Watching the clock
Can't do nothing
Internet's blocked
Why oh why didn't I listen

Now I'm in time out
Time out
Time out
Now I'm in time out
Time out
Time out

Jumbo

This is a true story
If you woulda told me
That I'd have to stay on the sideline
Watching everybody else play
I woulda thought twice
About what I did
Oh that's right
Maybe you told me
But sometimes gotta hear it again
Like repeat
Guaranteed when you see me next time
No, I'll be outside
'Cause I'm tired of the instant regret
Wanna be feelin' free on the swing set
Oh but I'm not gon cry
I'm not gon pout
For now I'm in time out
Time out
Why didn't I listen
And now I'm missing out
In time out
Time out

Now I'm in time out
Time out
Time out
I was tryna be cool
Time out
Time out
Will never ever ever ever do it again

I'm Bored (And That's OK)

I'm bored
I'm antsy and I'm dancey therefore
Gotta let my imagination explore
Guess it's time to use my brain
Before I go insane
And that's ok
Everybody gets bored

Got too much time on my hands
So I'mma use it to pretend
Create all the cool
Pink swimming pool
Imaginary friends

I'm the goat
You the goat
We got the goat
All the goats just meh
All the goats just meh

I got so much time
But don't really wanna waste it
Boredom ain't so bad
If you use it and embrace it oh
If you gotta wait
Think of something strange
And make it into a game

I'm bored
I'm antsy and I'm dancey therefore
Gotta let my imagination explore
Guess it's time to use my brain
Before I go insane
And that's ok
Everybody gets bored
I'm antsy and I'm dancey therefore
Gotta let my imagination explore
Guess it's time to use my brain
Before I go insane
And that's ok
Everybody gets bored

You can paint
Sweep the floor
Do the dishes
Do your chores
Pick your nose
Grab the hose
Wash the car
Draw a star
On your face
Face the facts
You got time
Run a three-legged race
Clean your pool

I got so much time
But don't really wanna waste it
Boredom ain't so bad
If you use it and embrace it oh
If you gotta wait
Think of something strange
And make it into a game

I'm bored
I'm antsy and I'm dancey therefore
Gotta let my imagination explore
Guess it's time to use my brain

Before I go insane
And that's ok
Everybody gets bored
I'm antsy and I'm dancey therefore
Gotta let my imagination explore
Guess it's time to use my brain
Before I go insane
And that's ok
Everybody gets bored

You see everybody
Boredom ain't so bad at all
It makes you think act
And do all kinds of things
It's all up to you
Let's have fun

International Space Station (feat. Davey & Peter) [Acapella]

International Space Station
250 miles up in the sky
Circling around our planet
A drifting scientific base
For astronauts in outer space

It flies around the earth every 90 minutes
That means it orbits 16 times a day
3rd brightest object in the sky
You can see it passing by with just your eyes

The astronauts, they work there all the time
Making cool science in a special way
From different countries, they all come
Collaborate & integrate to get it done

International Space Station
250 miles up in the sky
Circling around our planet
A drifting scientific base
For astronauts in outer space

I wonder what it's like to be in orbit
Round and round and round

Was made in outer space, piece by piece
A giant lab that never sleeps
With solar panels shining oh so bright
It's fueled by the stars

Both day and night

In zero gravity, it floats around
Adventure mobile so high above the ground
It's like a big ole house with lots of rooms
Where experiments take place
As they zoom past the moon

International Space Station
250 miles up in the sky
Circling around our planet
A drifting scientific base
For astronauts in outer space

International
I.S.S.
Space Station
Up in the
Up up up in the sky
Oh oh
International Space Station
So if you look up at the sky
International
Smile and wave hi
Maybe give a high five

Power to Learn

Yeah
Yeah
Let's go let's go
How do I learn
How do I grow
How do I learn
I gotta know

You've got a superpower
It's the power to learn
Getting smarter by the hour
It's the power to learn
What's a meteor shower
Use your power to learn
Where's the Eiffel Tower
Use your power to learn

When you were a baby
You didn't know a thing
Chillin' in your cradle
Or in your baby swing
You couldn't sing a song

You couldn't even talk and
You started to crawl
Then you started to walk and
As you grew older things started to change
You started to learn
And started using your brain
So put on your shoes
And learn to tie up your laces
We better get moving
'Cause we off to the races

You've got a superpower
It's the power to learn
Getting smarter by the hour
It's the power to learn
What's a meteor shower
Use your power to learn
Where's the Eiffel Tower
Use your power to learn
You've got a superpower
It's the power to learn
Getting smarter by the hour
With the power to learn
Why do lemons taste sour
Use your power to learn
How do I plant a sunflower
Use your power to learn

The older we get, the more we can know
The more we can learn, the farther we'll go
You can drive a car or maybe fly a plane
How can you do that
By using your brain
You could be an artist or a veterinarian
You could play guitar or be a vegematarian
Put on your shoes
And learn to tie up your laces
We better get moving 'cause we off to the races

You've got a superpower
It's the power to learn
Getting smarter by the hour
It's the power to learn
What's a meteor shower
Use your power to learn
Where's the Eiffel Tower
Use your power to learn
You've got a superpower
It's the power to learn
Getting smarter by the hour
With the power to learn
Why do lemons taste sour
Use your power to learn
How do I plant a sunflower

Use your power to learn

Hi hi hi hello hello
You can learn anything that you wanna know
I said
Hi hi hi hello hello
We can go anywhere that we wanna go

You've got a superpower
It's the power to learn
Getting smarter by the hour
It's the power to learn
What's a meteor shower
Use your power to learn
Where's the Eiffel Tower
Use your power to learn
You've got a superpower
It's the power to learn
Getting smarter by the hour
With the power to learn
Why do lemons taste sour
Use your power to learn
How do I plant a sunflower
Use your power to learn

Sticks N Stones (feat. Mega Ran)

Sticks n stones may break my bones
But your words will never hurt me
Sticks n stones may break my bones
But your words will never hurt me
Nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo

It's a big big world
With whole a lot of people
Most of 'em are a nice
Most of 'em are equal
But every once in a while
You come across a big meanie
And for reasons unknown
They find ways to make you teeny
Or tiny
Yucky words that feel gross and slimy

But it might be
They got their own issues inside
Projecting madness, sadness
A way for them to hide
So breathe and stop
Tell 'em what you got
And that's

Sticks n stones may break my bones
But your words will never hurt me
Sticks n stones may break my bones
But your words will never hurt me
Nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo

They can say what they want
Don't believe what they say
Tell 'em listen real close
I got a game for you to play
It's called
I can't hear a single rude word today
'Cause your words are just words
Won't affect me, ok

Words might not cause scars and bruises
But that don't mean
We should make excuses
For negative speech
When you can just be kind
'Cause once they come out
You can't press rewind
Fools intent on
Stopping any kind of joy
Keep that mess from
Mega Ran and Ronnie Boy
And just in case
They didn't catch the rhyme
Go 'head and bring the bridge back
One more time
Hey

Sticks n stones may break my bones
But your words will never hurt me
Sticks n stones may break my bones
But your words will never hurt me
Nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo
Nanny nanny nanny boo boo
Boo boo

The adults, the grannies, the grandpas
To put your dance shoes on
And get right up
Because we are about to have a party

Bout a dance that never fails
Kick off your shoes, get ready to sway
To a catchy tune that's playin' all day
Gather your friends, let's form a line
We'll slide together, get down alright

Follow my lead, giddy up lets ride

Heaven

Mornings I'd wake up
Sunlight in my face
Open my eyes
Look to the side
Where you'd take up all the space
Did you play a magic trick on me
When you disappeared so suddenly
Now it's kinda quiet
You're somewhere I can't be

Who is gonna hold me
When I'm not feeling right
Who will win the battles for me
When I can't put up a fight
Who will lay right beside me
When I can't sleep at night
When I'm scared of the darkness
Will you be my night light

You must be in
Heaven, heaven
They say you're having fun in
Heaven, heaven
You're smiling down at me from
Heaven, heaven
I'll wait here patiently
Can't wait for the day
Till it's just you and me again

When I look up to the stars
I wonder why you seem so far
But your love it feels so close
Oh it's the hugs I miss the most

I'm so happy I can keep you near
Fun times we had remain so clear
Won't worry anymore
'Cause in my heart I know that
You are here
And

You are gonna hold me
When I'm not feeling right
You will win the battles for me
When I can't put up a fight
You will lay right beside me
When I can't sleep at night
When I'm scared of the darkness
I know you're my night light

You must be in
Heaven, heaven
They say you're having fun in
Heaven, heaven
You're smiling down at me from
Heaven, heaven
I'll wait here patiently
Can't wait for the day
Till it's just you and me again

You are gonna hold me
When I'm not feeling right
You will win the battles for me
When I can't put up a fight
You will lay right beside me
When I can't sleep at night
When I'm scared of the darkness
I know you're my night light

You must be in
Heaven, heaven
They say you're having fun in
Heaven, heaven
You're smiling down on me from
Heaven, heaven
I'll wait here patiently
Can't wait for the day
Till it's just you and me again

You must be in Heaven
You're smiling down on me
I'll wait here patiently
I need you endlessly
I need you here with me
Oh
I'll wait here patiently
Can't wait for the day
Till it's just you and me again

Sunglasses (feat. DJ WILLY WOW!) [Ronnie Boy Remix]

I gotta get my sunglasses
Which pair should I wear
(Ooo those are dope)
Oh you like these
(Oh yeah, get those)
(Those are fun)
Oh yeah, I like 'em too
Let's go

Sun sun sun sunglasses
Sun sun sun sunglasses
Sun sun sun sunglasses
Sun sun sun sunglasses

I wear my favorite pair to see you
I bought a brand new pair to see you
I wear them everywhere to see you
I'll go anywhere to see you
Feel the love and the energy
And the sunshine

Sun sun sun sunglasses
I got to have my
Sun sun sun sunglasses
Don't let me lose my
Sun sun sun sunglasses
I got to have my
Sun sun sun sunglasses
Aye

Sunny days this is the song
That's played by DJs
When they throw on the shades
When the party commences
The moment, momentous
Future so bright
Gotta peep it thru my lenses
I see the world change thru these frames
But I still stay the same
You're a sight for sore eyes
A sight for good vibes
These shades got me lookin' on the bright side
Misplace them
Break them, replace them
I even got a pair for the ones that stare
When I'm on the road

Or in the air
I'm bringing sunshine when I get there, oh

I wear my favorite pair to see you
I bought a brand new pair to see you
I wear them everywhere to see you
I'll go anywhere to see you

Sun sun sun sunglasses
I got to have my
Sun sun sun sunglasses
Don't let me lose my
Sun sun sun sunglasses
I got to have my
Sun sun sun sunglasses
Aye

Ronnie Boy from the place well-known
Not the booth, studio, or the microphone
Give you hint
Less than a cent
Free99
20/20 vision
That's money well spent
If you still don't get it
Hey, don't fret it
What I mean is love
All us
We spread it
Shine so bright
Floss all through the night
In the morning we ain't yawning
Party hardy on sight
Energetic with the gifts
Presence is a present
Presently
You will need UV protection
Radiate from our hearts
Got it all
Confession
Ronnie Boy Willy Wow
In the house
No question

I wear my sunglasses at night
When I'm dancing in the party lights
When love's in the air we shine so bright
So bright
I wear my sunglasses at night
When I'm dancing in the party lights
When love's in the air we shine so bright

Sun sun sun sunglasses
I got to have my

Sun sun sun sunglasses
Don't let me lose my
Sun sun sun sunglasses
I got to have my
Sun sun sun sunglasses
Aye

Sun sun sun sunglasses
Don't make me lose my
Sun sun sun sunglasses
I came to get some
Sun sun sun sunglasses
Don't let me lose my
Sun sun sun sunglasses

Be a superstar
No matter who you are
Keep shining
Aye

Be Me

I love being me
Because I don't know how to be anyone else
Take it or leave it
This is just how I am

I'm flapping my hands like wings
I wear rubber bands like rings
Tin foil for a hat
Hanging upside down like a bat
Those kinds of things, yeah

I'm eating cheese like a mouse
Pretend a tree is my house
Wear my shoes on my hands
Line dance with a plant
Take a nap with my cat on the couch
Woo

How's it feel to be you
It feels so good to be me
Smiling in the sunshine
Living in the springtime
Happy and free, oh yeah
How's it feel to be you
It feels so good to be me
Smiling in the sunshine
Living in the springtime
Happy and free, oh yeah

What can I say
I wouldn't do it any other way
So you do you
And I'll do me
It's the only way I know to be
Oh come what may
I'm dancing like this every day
So you do you
And I'll do me
That's the only way I'm meant to be

Make a noise like a whale
Go as slow as a snail
Run outside in the rain
Pretend I'm a man
That lives down the drain
Play a song on the spoons
Bob around like balloons
Make a marshmallow boat
And if I was a goat
I would eat everything, yeah

Gonna laugh like giraffes
Bend myself in half
Put on my swim fins
Put on a big grin
And jump in the bath, oh yeah
I got a farm full of ants
Ooo I'm gonna make up a dance
I'm myself and I like it
See a hill and I'll hike it
Given a chance, yeah

How's it feel to be you
It feels so good to be me
Smiling in the sunshine
Living in the springtime
Happy and free, oh yeah
How's it feel to be you
It feels so good to be me
Smiling in the sunshine
Living in the springtime
Happy and free, oh yeah

What can I say
I wouldn't do it any other way
So you do you
And I'll do me
It's the only way I know to be
Oh come what may
I'm dancing like this every day
So you do you
And I'll do me
That's the only way I'm meant to be

I hear "don't do this"
I hear "don't do that"
I hear "don't stand up"
I hear "don't stay sat"
I hear "don't wear a frown like a clown"
But that makes no sense at all
No sense no sense no sense at all

How's it feel to be you
It feels so good to be me
Smiling in the sunshine
Living in the springtime
Happy and free, oh yeah
How's it feel to be you
It feels so good to be me
Smiling in the sunshine
Living in the springtime
Happy and free, oh yeah

What can I say
I wouldn't do it any other way
So you do you
And I'll do me
It's the only way I know to be
Oh come what may
I'm dancing like this every day
So you do you
And I'll do me
That's the only way I'm meant to be

What can I say
I wouldn't do it any other way
So you do you
And I'll do me
It's the only way I know to be
Oh come what may
I'm dancing like this every day
So you do you
And I'll do me
That's the only way I'm meant to be

You always gotta be yourself
I promise
It's way more fun
Than trying to be someone else
